# CHILDREN AND FAMILIES SIG WEBINAR: Rapid Fire Presentations - Let's talk Lifestyle, Behaviours, Children and Families

The ISBNPA Children and Families Special Interest Group includes researchers and trainees with a wide area of research engagements and passions in physical activity and nutrition across the early years, and important life stages including family planning.

This webinar brings together our diverse group for a one hour rapid fire session on research happening around the world in relation to physical activity and nutrition for children and families. Learn from trainees and early career researchers on what they are working on in short 3-5 minute presentations with time for Q&A.

This is a great opportunity for you to learn about new research avenues, potential collaborations within ISBNPA, and a chance to support your international peers!

### When

October 27, 2022, 21:00 GMT

# Register:
