

ISBNPA

Socioeconomic Inequalities SIG

Hello!

Dear Socio-economic Inequalities_SIG members,

Welcome to the latest Socio-economic Inequalities Special Interest Group Newsletter.

This newsletter is packed with important information on our SIG events and activities. The ISBNPA conference in Uppsala, Sweden, is coming up and we start the news giving you a brief overview of some sessions related with our SIG interests.

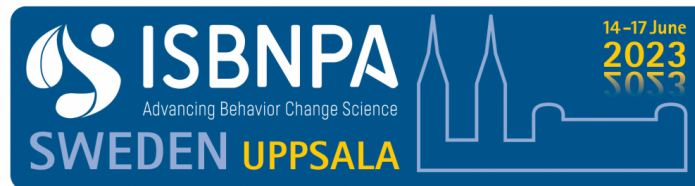

Next year's meeting (Omaha, Nebraska, USA) is already being prepared by the ISBNPA conference committee. Therefore, we ask if you want to propose yourself or any other colleague for Key Speakers on Socio-Economic Inequalities Science Research.

Our SIG webinars are coming up in May and June! "Challenge and encourage webinar participants to self-reflect, peer-educate, and raise their own consciousness surrounding accessible initiatives" in the *Inclusive Research and Program Development: 5 Lessons from Reality TV on Health Equity* Webinar and "Introduce equity and related topics for consideration in the (co)production of evidence syntheses with speakers from several Cochrane Methods Groups" in the *Equity Considerations in Evidence Synthesis* Webinar are the proposals for you. Please make sure you sign up.

Don't miss our survey linked below. This is related to our Business Meeting (planned for the end of September). The main aim is to know more about your needs and thoughts regarding future collaborations that may build a strong engagement within our SIG (it only takes 5 min.). It's important for us to hear about you. Many thanks!

Near the end of the newsletter, we present recent publications. Finally, we ask you for sending us details about new projects, publications or announcements you would like us to share on our SIG Social Media or on the next newsletter.

All the best,
Sónia Vladimira Correia, Lua Perimal-Lewis, Anna Lene Seidler

ISBNPA 2023 SIG-RELATED ACTIVITIES

Here you can find a brief preview some sessions related with our SIG interests at the upcoming conference in Uppsala, Sweden. We will have more presentations and details to feature in our social media. Conference details can be found at [ISBNPA 2023](#).

Keynote #1- Community-engaged Citizen Science to Advance Healthy Lifestyles & Health Equity Worldwide: Building the Science of Citizen Science.

Prof. Abby King, Professor & Vice Chair For Academic Affairs Stanford University School of Medicine.

Wednesday, June 14, 2023

2:45 PM - 3:45 PM

University Auditorium

Award Session- Socioeconomic inequalities in health and health behavior mapped out from a complex systems perspective: A systematic review.

Ms. Andrea Mudd, Phd Candidate, Utrecht University

Wednesday, June 14, 2023

4:15 PM - 5:30 PM

Award Session- The accumulation of social vulnerabilities directly associates with obesity and weight gain over adolescence.

Dr. Juan Miguel Fernández Alvira, Centro Nacional De Investigaciones Cardiovasculares (cnic)

Wednesday, June 14, 2023

4:15 PM - 5:30 PM

Symposia- Sex and Gender Based Analysis: Understanding the Landscape and Improving our Approach.

Shilpa Dogra; Andrew Putman and Eun-Young Lee; Paul Gardiner

Friday, June 16, 2023

8:15 AM - 9:30 AM

S.2.23

Symposia- When moving is the only option: the role of necessity versus choice for understanding and promoting physical activity in Low- and Middle-Income Countries.

Dr. Deborah Salvo; Prof. Olga Lucia Sarmiento; Dr. Deepti Adlakha

Friday, June 16, 2023

4:15 PM - 5:30 PM

S.2.33

Symposia- The underlying mechanisms via which food environments and related policies impact on socioeconomic inequalities in diets.

Mrs. Carlijn Kamphuis; Mrs. Carlijn Kamphuis; Mrs. Carlijn Kamphuis

Saturday, June 17, 2023

8:15 AM - 9:30 AM

S.3.43

Symposia- Addressing Food Insecurity: Formal and Charitable Food Assistance and Implications for Nutrition Policy and Practice in Community and Clinical Settings.

Dr. Craig Gundersen; Dr. Rachel Loopstra; Assistant Professor Anna Arthur.

Saturday, June 17, 2023

11:45 AM - 1:00 PM

S.3.53

LOOKING FOR 2024 CONFERENCE KEYNOTE SPEAKERS

The ISBNPA conference committee is looking for conference keynote speakers for the annual meeting in Omaha, Nebraska, USA, 2024. If you have any recommendations regarding Socio-Economic Inequalities Science Research, please contact [Antonio Palmeira](#).

UPCOMING CONFERENCES AND WEBINARS OF INTEREST

SIG Webinar: Inclusive Research and Program Development: 5 Lessons from Reality TV on Health Equity

Tuesday, May 23, 2023
1600, UTC
6 PM, Oslo
11 AM, Texas

What do home makeover shows have to do with health equity? Everything. Home design is all about choices. Making your choices an intentional part of research in health equity can transform complex challenges into elegant results. This interactive workshop rethinks traditional approaches to health research, whether on physical activity, nutrition, or access to health information and services, using design as a method for incorporating diverse voices, including historically under-represented groups of people, in the research process. You'll come away with a concrete roadmap you can use to co-create your next research project!

Sample questions attendees will encounter include: In what ways are we intentionally or unintentionally excluding subsets of the community? How can we be better listeners, communicators, and advocates for our communities? How can we center equity in our work?

Participants will leave equipped with the knowledge and ability to use inclusive design in their own work. They will also be challenged to identify their roles in promoting equity while creating actionable steps to promote inclusive design in the future. This workshop will challenge and encourage participants to self-reflect, peer-educate, and raise their own consciousness surrounding accessible initiatives.

Speakers: Anthony Giannoumis, Sumita Kunashakaran
Moderators: Laurel Curran

SIG Webinar: Equity Considerations in Evidence Synthesis

Wednesday, June 7, 2023
2 PM, Vancouver
5 PM, Ottawa
10 PM, London

11 PM, Paris/Berlin
Thursday, June 8, 2023 (AEDT)
7 AM, Sydney

Different populations may experience different burden of disease and require different treatments or policies to meet their health needs. Yet, traditional evidence synthesis (e.g. systematic reviews and meta-analyses) underlying health guidelines and policy frequently is unable to identify differential needs for different populations. Instead, factors related to equity are frequently not considered in evidence syntheses. This webinar will introduce equity and related topics for consideration in the (co)production of evidence syntheses with speakers from several Cochrane Methods Groups (Campbel and Cochrane Equity Methods Group, Prospective Meta-Analysis Methods Group).

You can sign up [HERE].

Speakers: Omar Dediwar (Canada), Olivia Magwood (Canada), Kylie Hunter (Australia)

Moderators: Maureen Ashe, Anna Lene Seidler

SIG MEMBERS SURVEY ABOUT THE NEXT BUSINESS MEETING

We plan to conduct our Business Meeting at the end of September. We are interested in learning more about our members, and about the events you would like to see from the Socio-Economic Inequalities SIG. We hope that the meeting will allow us to understand more about our members research, and how to build collaborations with strong engagement within our SIG. **Please share your thoughts [here](#).**
